Ellie Laubner : Fashions of the Roaring '20s (Economics of Legal Relationships) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fashions of the Roaring '20s (Economics of Legal Relationships):

0 of 0 people found the following review helpful. Best period costume book ever By Julie R. This book is the best overview of a fashion period I have ever seen. I am a professional costume designer and have a large library of books on period costumes and this one is the best. So much information in a small package, gives just the right amount of information and pictures needed to give you a feel for the period. Covers everything from underwear to communion dresses. Wish she would write some more books!! 2 of 2 people found the following review helpful.) Highly recommend buying a good quality used copy By Pen Name Bought for my wife—who is deeply interested in 20th C womens history, and 19th-20th C womens fashions. She thought it was an outstanding picture book, and she actually found things she didn't know about 1920's fashion. (A very rare admission.) Highly recommend buying a good quality

used copy. 16 of 16 people found the following review helpful. Fashions of the Roaring 20s By Maria Faen Dear , I purchased this book from as a birthday gift for my daughter, who loves 1920s fashions. I was delighted when the book arrived in plenty of time for her birthday on 14 May, and much earlier than 's estimated delivery time. My daughter LOVES this book and I do too! It is filled with beautiful colour illustrations of the fashions of the time, including underwear, children's and men's fashions too. It also has a considerable amount of historical information regarding what was happening in the world during the 1920s. I would recommend this book to anyone who is interested in the 1920s and what women were wearing during that decade. Maria Faen

Clothing of the "Roaring 20s" comes to life in this new book through more than 550 color pictures of distinctive garments, fashion illustrations, and period photographs. The comprehensive text discusses the historical events and renowned designers who influenced the evolution of fashion throughout the decade. Fashions for men, women and children are shown here, from glittering evening gowns and bridal wear to lingerie, sportswear, and domestic uniforms. Hats, handbags, shoes, and jewelry plus smoking and drinking accessories are all included to document the heyday of the "flapper" and her friends. The glossary includes French fashion terms and pronunciations and the price guide is a useful reference.

About the Author Ellie Laubner has been a collector of vintage clothing and accessories for years. When she is not seeking out new items for her collection, Ellie lectures and writes about fashion history.
