Ruth Soffer : Favorite Birds Laser-Cut Plastic Stencils (Dover Stencils) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Favorite Birds Laser-Cut Plastic Stencils (Dover Stencils):

1 of 1 people found the following review helpful. Beautiful! By Ninotchka These are better than expected. Very nicely cut and ready to use. They are made of a blue plastic material.

Bird designs are among the most popular decorative motifs used by stencilers for craftwork and home decorating projects. The thirteen attractive avian motifs in this easy-to-use collection appear on three durable, clear blue plastic sheets, laser-cut for maximum clarity and greatest durability. Handsome designs depict the scarlet tanager, mallard, hummingbird, flamingo, swan, nuthatch, macaw, cardinal, gull, toucan, heron, and owl, as well as an attractive border of ducks in flight. Ideal for decorating furniture and walls, creating applique designs for needlework projects, applying

to posters, and for use in a host of other arts and crafts activities, these striking designs can be used again and again with no loss of sharpness or detail.
