A friend had loaned me this book and I was lucky to find it on for a great price! What a find!0 of 0 people found the following review helpful. Woow photographyBy ZoomZoomYou could get this for the photography alone. Some really neat ideas, some goofy, and they always tell you what kinds of flowers you are looking at -- cool!

Filled with lush color photographs, this innovative combination of feng shui and horticulture offers detailed instructions for creating artistic and contemporary floral arrangements to promote fame, love, passion, harmony, career, wealth, and more. The designs all use readily accessible flowers and include alternatives for seasonal and

variously priced blooms.!

About the Author Jo Russell was introduced to the Tao and Feng Shui as a child. Jo founded The Plant Studio seven years ago and her aptitude for gardening, design and landscaping has been given a new dimension with the application of Feng Shui. She gives consultations and lectures on Feng Shui, Chinese Astrology and I Ching. As well as writing articles on Feng Shui, Jo also provides horoscopes for The House of Feng Shui and Feng Shui for Modern Living.
