Mindy Lacefield : Field Notes before purchasing it in order to gage whether or not it would be worth my time, and all praised Field Notes:

0 of 0 people found the following review helpful. While the art is sweet, especially for a young girlBy Kateri Ewing van Huysteel was buying this as a gift for someone, but will be returning it. While the art is sweet, especially for a young girl, I was disappointed. I should have read the reviews and not the description of the book. It is nothing like what is depicted on the cover. It is instead whimsical drawings and paintings of large-headed cartoon people.2 of 2 people found the following review helpful. Truly Wonderful Art and PoetryBy L. M. FoxI can't say enough about Mindy Lacefield except she's a very gifted artist. I have spent a lot of time with this book, enjoying it and learning from it. I'd love to see another book, more in depth on how she creates.1 of 1 people found the following review helpful. LoveBy Lisa BarkerAnother wonderful book of Mindy's! She is such a gift to those on this art journey! Anything Mindy offers is life changing.

Field Notes is a zine that is inspired by nature journals using mixed media and is a supplement to my online class called Field notes available on: www.timssally.ning.com Field Notes encourages you to talk nature walks and to listen to the small sounds...notice the birds and creatures...and breathe in stillness to ground yourself before heading back into the studio to create. I encourage you to take your journal and camera outside and document what you see....what

you hear. And by being still you are able to access your truest self.
