**From Twenty First Century Games : Fiend Folio (Miniature ADD Collector's Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fiend Folio (Miniature ADD Collector's Edition):

3 of 3 people found the following review helpful. Fiend Folio...not for amateurs.By J MoreFiend Folio...if you don't know what Dungeons and Dragons are, or what this book is about, don't buy it. This is a vintage piece of lost information for those who seek rare and unusual knowledge. Those who seek to add to your adventures and fright, this is an excellent tome. It has older and elder creatures and beings that can be used in even the newer DD treks. A worthy buy, and good to have in a collection for true DM's.2 of 2 people found the following review helpful. The bestBy S. LeeThe best version of DD, the best cover, the best everything. You can't do any better than the original ADD.Though this isn't one of the core books, it's a perfect addition because the creatures in it are more 'realistic' than the ones in Monster Manual II. This is, in fact, the only addition I have to the core books.4 of 4 people found the following review helpful. IT IS BEAUTIFUL!By LeviI really enjoy this older drawing style with the art nouveau influence. Seeing the older monster types from the earlier Dungeons Dragons gaming is really cool too. I kind of wish that the artwork of the newer books was more detailed like these, but some people just have different tastes.If you enjoy older, more simplistic drawing styles I recommend this book. If you like older formats of DD I also recommend this book!
