Choosing the right findings and finishing techniques can transform an ordinary piece of jewelry from simple to stunning. This guide describes how to use purchased findings, provides techniques for creating unique ones, and shares innovative ways to finish necklaces, bracelets, earrings, and pins. Each finding and finishing technique--whether it's a description of a barrel clasp, instructions on making your own beaded clasp, or methods for attaching a pin back--is presented in detail with colorful illustrations and photographs. Projects are integrated throughout the book

to illustrate the techniques presented.

From School Library Journal Adult/High School-A great resource for anyone interested in making beaded jewelry. Its focus, to be sure, is exploring the options and techniques for finishing projects, but it goes much further than that. Bateman includes a brief history of jewelry and an excellent overview of the basic tools and materials involved in making beaded jewelry. Beautiful photographs and sketches in color illustrate the detailed explanations and instructions. Suitable for beginners and experienced crafters, the projects range from simple earrings to intricately stitched bracelets. The wealth of information and easy-to-follow layout will appeal to any beadworker.-Christine Jones, Fairfax County Public Library, VA Copyright Reed Business Information, a division of Reed Elsevier Inc.
