**Elizabeth Clark : Flirting For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flirting For Dummies:

(Sorry if I missed some thing in the description and I'm captain obvious.) It was OK, and did make me consciously think about what I was doing and all, and think things through. Though I'm not sure any one bit of info I found in there was some thing I didn't know. Or where it was, that it was some thing applicable to the American Culture.1 of 1 people found the following review helpful. Four StarsBy
