By E. Heide This calendar doesn't have one ugly picture in the bunch. Usually I hate one month and end up cutting the picture off and using the prior month's photo. Taking this to work so I have something enjoyable to look at during the day.

By C. Elders Very beautiful, love it
0 of 0 people found the following review helpful. Two Stars
By BKI expected more of this calendar. The composition of the flowers seems off.

We look at a beautiful flower, but do we actually see it? Amalia Elena Veralli is a passionate visual explorer and her photographs take us on an expedition into the remarkable structure of flowers. Whether observing the entire bloom or seeing into a flower's core, *To the Heart of Flowers* by Amalia Veralli 2017 calendar reveals the incredible patterns, vaulted canopies, and spires that argue for Nature's place as Earth's foremost architect.
