Elsie Luxton, Yusai Fukuyama : Flowers in Honiton Lace before purchasing it in order to gage whether or not it would be worth my time, and all praised Flowers in Honiton Lace:

This is a multi-language book of nearly 50 Honiton lace patterns, ranging from simple designs suitable for the beginner, to advanced patterns incorporating rolled and raised work. The designs are based on flower shapes, traditional in Honiton lace. Each pattern is accompanied by five illustrations, including a photograph of the wrong (ie working side) of the lace. The brief written instructions are given in French, German, Dutch and English. Elsie Luxton is a lacemaker and tutor in many colleges in Britain, Holland, France and Germany and Yusaio Fukuyama is a Japanese designer.
