Richard M. Bacon : Forgotten Arts: Growing, Gardening and Cooking With Herbs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Forgotten Arts: Growing, Gardening and Cooking With Herbs:

1 of 1 people found the following review helpful. More interesting as a view into the past than a current guide By JayBo It's a reprint of a decades-old book so if you like collecting old books, go for it. If you want to learn to grow cooking herbs, let alone how to grow herbs for home medicinal use, please buy something printed much more recently! 0 of 0 people found the following review helpful. One of the best herb books I own By Joyce A. Lacey One of the best herb books I own, and I own a lot of them. I would recommend everyone that wants to grow, cook or use in anyway should own this book.

Octavo, , PP.125, How To Use Herbs In Modern Practical Ways
