I love this story, because it shows four kittens with different personalities, deciding to go different places and do different things with their lives, and how they ALL "lived happily ever after." It shows children that we aren't all alike and it's OK to like different things and do different things.0 of 0 people found the following review helpful. ... the other two books I purchased are a very good quality so I pleased with itBy JJTBQThis book along with the other two books I purchased are a very good quality so I pleased with it, yes.
