By Bobby L The book basically summarizes a lot of my own life... especially frustration at a bad job or crappy boss! It does exactly what it says it will and helps calm you the hell down and laugh at the same time by living vicariously through Fred. It's awesome and has one image per page so you don't need to worry about any coloring your doing bleeding through and messing up another page. A lot of the images will make you laugh out loud and you'll recognize some of the death scenarios from famous movies or tv shows. You can obviously tell the author loves to watch a lot of Walking Dead. lol You'll pretty much find an image that matches your job and fantasy killing scenario when you flip through the book. It's a great book for someone with a sick sense of humor (which pretty much describes myself) and anyone that loves to color at a reasonable price. It's a great gift idea for a friend you know suffering the same

situation. The only thing that could make it better would be more pictures and death scenarios! If this matches your sense of humor, then you'll love this book. I've attached a few of my favorite pictures. Go take a walk in a park or something and think about how great your professional life is. This is for the rest of us. The ones who drag their unwilling bodies through day after day of soul sucking life draining work. Never before has an Adult Coloring Book been so relevant. On the verge of a breakdown? So is Fred. He's had enough. There is only so much one man can take and he can't take any more. Live vicariously through Fred as he acts out his fantasies of killing his boss. If you're looking for page after page of boss killing goodness you got it (10 illustrations to color +1 bonus page). Stabbings, strangulation, cannibalism, magic tricks gone wrong, you name it Fred's done it. Let the stress melt away as you carefully color in the murderous acts. About the Author Avery DeLeo has spent his entire adult life doing research for this book. His career to date has been a cover for learning about awful workplaces and the people in charge of them. He has sacrificed his youth to tell the story of the silent suffering of many. Only through his terrible experiences was he able to develop the vivid rawness and genuine nature of this text. Presently he is still trapped in the nightmare world where he is forced to sit at a desk in a crappy office. There is still a small part of him deep down in his soul that has hope for escape...
