Lora DiFranco, Ali Forbes, Erin Guido, Joe Lanzilotta : Free Period: A Patternful Colouring Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised Free Period: A Patternful Colouring Book:

You know how you work all day and then come home and want to do something awesome and creative but are super-exhausted from working all day? OMG us too! Then we remembered that coloring is pretty much the best. After 15 minutes of zoned-out coloring, you're left with something tangible: proof of your creativity in the form of a piece of art! That you just made! Yourself! (Like us, you may also be left with proof of your inability to color within the lines. But that's ok because you are a creative force that cannot be contained!) Free Period is full of 31 patterns designed by a group of four artists and friends. We want to make it really easy for you to squeeze in a creative activity every day. Just like having a free period when you were in school, you can use this coloring book however you want! Zone out,

meditate, or get inspired for a creative project of your own. You can see the artwork being made by Free Period fans around the globe by searching [#freeperiodpress](#).
